

FREEDOM ARMS

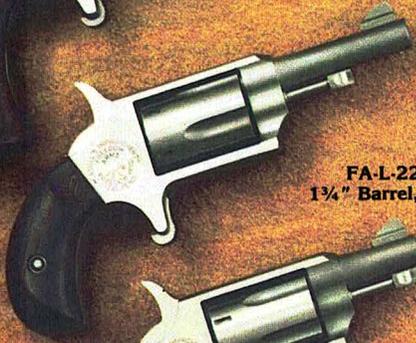

Catalog 1983

American Classics

The Freedom Arms line of mini revolvers represents a unique blend of old and new. They combine the classic look and feel of their turn-of-the-century counterparts with the latest in modern gunsmithing technology. 9 great models. Precision made in the USA by experienced, skilled craftsmen. American Classics... right to the finish.

1 3/4" Barrel, 4 1/4 oz.

FA-S-22LR
1" Barrel, 4 oz.

.22 Caliber Mini Revolver

It is difficult to believe that so much power can be packaged into such a small firearm. Starting at 4 ounces these popular 5 shot mini revolvers are the smallest, lightest and most dependable weapons ever produced. Chambered for 22 short, long and long rifle ammunition, the Freedom 22 caliber mini revolver is the only gun of its kind designed to shoot high power ammunition such as stingers, yellow jackets and Xpeditors. For the police officer or anyone who needs a concealable handgun of considerable power, or the outdoorsman needing a lightweight backup revolver, there is nothing comparable.

.22 Magnum Mini Revolver

Freedom's 4 shot magnum mini revolvers offer the ultimate in concealability and high power performance! At 4 1/4 ounces this gun offers more power per ounce than any gun ever produced. The magnum is the perfect answer for anyone looking for a potent yet compact firearm. For the discriminating shooter who desires the power of a magnum yet the economy of long rifle ammo, an interchangeable .22 LR cylinder is available.

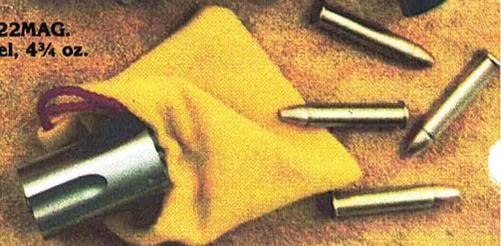

FA-BG-22MAG.
3" Barrel, 5 1/4 oz.

New Percussion Mini Revolvers ... One of a Kind!

Freedom's percussion Revolvers are just what gun enthusiasts have been waiting for. These amazing 5 shot .22 caliber percussion pistols are the first percussion guns ever, capable of shooting bullseye powder! The percussion revolver has all the classic features of the Freedom cartridge revolvers. All stainless steel construction. Man size hammer spur. Easy take down for loading, unloading and cleaning. Choice of simulated ebony or ivory grips (rosewood grips optional). Available in 3 popular barrel lengths, these mini-powerhouses offer pure nostalgic shooting fun.

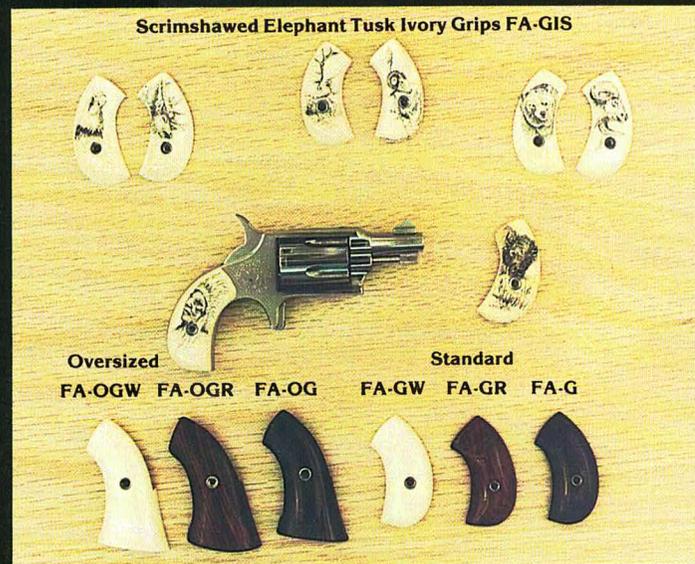

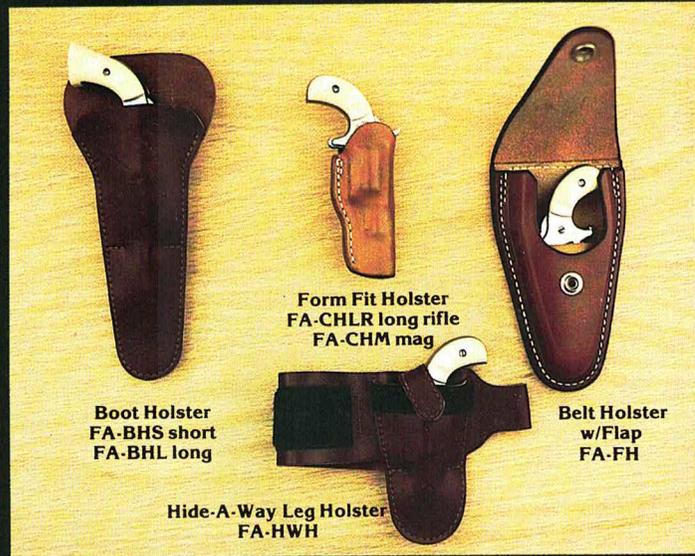

Includes bullet setting tool, powder measure, twenty bullets and soft zipper pouch.

Distinctive Buckles

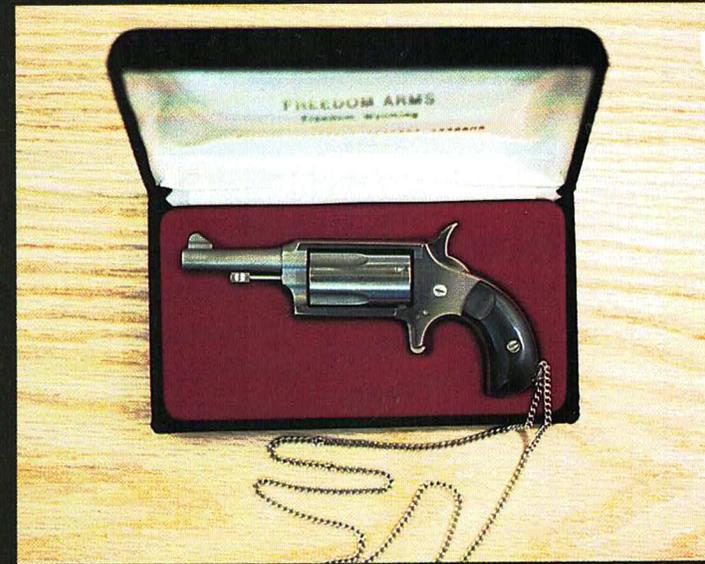

Freedom Arms has put their famous mini revolver in a solid brass buckle and does it look sharp! The revolver is held in place by a single clip and is removed simply by pressing the button between grip and trigger. The buckle is only slightly larger than the standard western buckles, but the Freedom Arm's buckle has the potential to be a lifesaver. The buckle will securely hold a fully loaded revolver. Whether it's security you want or a conversation piece, this buckle sure fills the bill. Gun and buckle may be purchased separately. Buckle fits the percussion or the cartridge mini-revolvers models FA-S-22LR and FA-S-22P.

Accessories

HOLSTERS Freedom Arm's holsters are made of a light-weight, top grain leather. Ideally suited to conceal and protect any mini revolver, yet offer quick and easy access when the gun is needed. (When ordering Hideaway Leg Holster specify length: 14", 17", 20" or 23". Allow 5" to 7" overlap.)

GRIPS All mini revolvers may be special ordered with plain ivory or scrimshawed grips. (Scrimshawing is the delicate art of scribing a design in ivory or bone using a permanent ink to bring out the design.) Both oversized and standard grips may be ordered to fit any revolver in either rosewood or simulated ebony/ivory.

NECK-CHAIN or WATCH BOB Stainless steel chain affixed to mini revolver butt on a swivel. Installed at Factory. Specify either 24 or 30 inch chain. FA-SSC

PRESENTATION CASE This attractive case is available for all 1" and 1 3/4" bbl. revolvers. Ideal for gift pack, storage, or display. Black velvet covered steel with red interior. FA-VPC
