## FREEDOM ARMS

We at Freedom Arms realize owning one of our revolvers goes beyond just another purchase of a firearm. It is an investment. Therefore, people are available at the factory to help you make the best choice of revolver and options to suit your needs. Instruction manuals are also available upon request to help you make an informed choice.

## ACCURACY

Consistent accuracy is achieved through the engineering and quality control standards established and followed by the people of Freedom Arms. Power is wasted if you can't direct it exactly where you want it. Precise bullet placement is the result of design and craftsmanship.

## BALLISTICS

Freedom Arms revolvers allow given cartridge to reach its greatest potential in accuracy and velocity. The characteristics of each cartridge are matched to chamber, throat and barrel diameters along with rifling twists to stabilize a broad range of bullets at a variety of velocities.

## CRAFTSMANSHIP

Driving the success of our product line are the people at Freedom Arms. Dedicated to maintaining the stringent standards needed to achieve absolute quality, they are responsible for our reputation.

## ABOUT SAFETY

The carry position of your Freedom Arms Model 83 revolver is with the hammer in the safety position and an empty chamber under the firing pin.

## MODEL 83

Capable of delivering over a ton of energy the model 83 was developed for the experienced shooter. It is excellent as a primary hunting firearm or a backup when hunting large, dangerous game. With lighter loads it can be used for general shooting and hunting smaller game. Optional cylinders for .45 Colt, .45 Winchester Magnum, .45 ACP and .22 Magnum, expand the model 83's versatility. We also offer a number of options such as different barrel lengths, sight variations, scopes, sling and studs, Mag-na-porting, honed actions and trigger over-travel screws. Properly used and cared for, each Freedom Arms revolver will give you reliable accuracy and performance for thousands of rounds.

### PREMIER AND FIELD GRADES

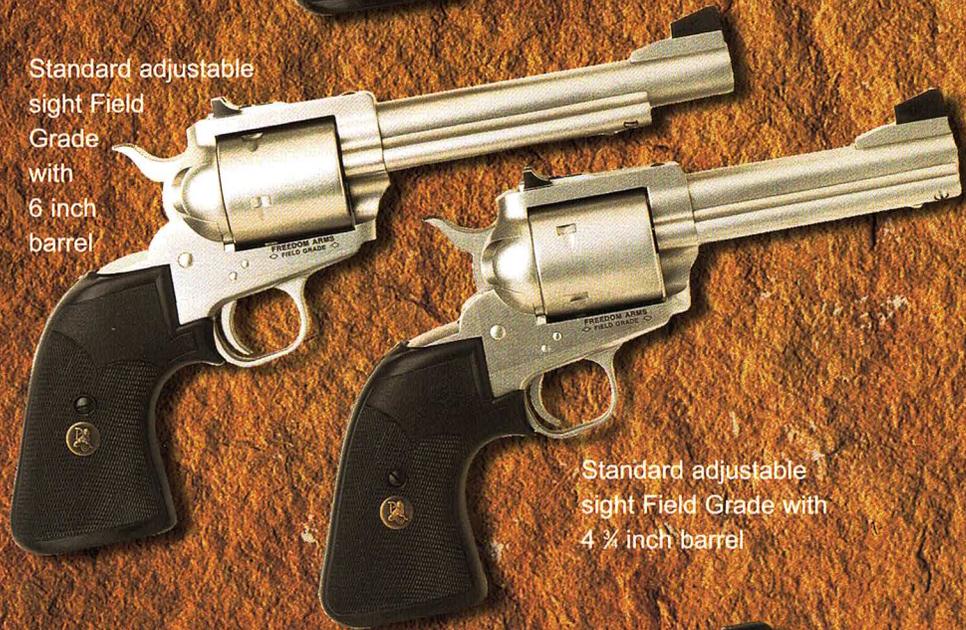

Both Premier and Field Grade revolvers are made with the same materials and machining tolerances. Both include a sliding safety bar. They differ in finish, standard components and warranty. The Premier Grade has a bright, brushed finish with more attention to cosmetic details while the Field Grade has a more economical matte finish for less glare. Premier Grade rear sights are screw adjustable for elevation and windage while Field Grade rear sights are screw adjustable for elevation and drift adjustable for windage. Premier Grade grips are laminated hardwood with a resin bonding while the Field Grade comes with Pachmayr Presentation grips. Premier Grades have a limited lifetime warranty, Field Grades have a limited one year warranty. Consult our price list for standard and optional features available on each revolver.

Standard adjustable sight Field Grade with 10 inch barrel, optional trigger stop and optional Premier Grade rear sight.

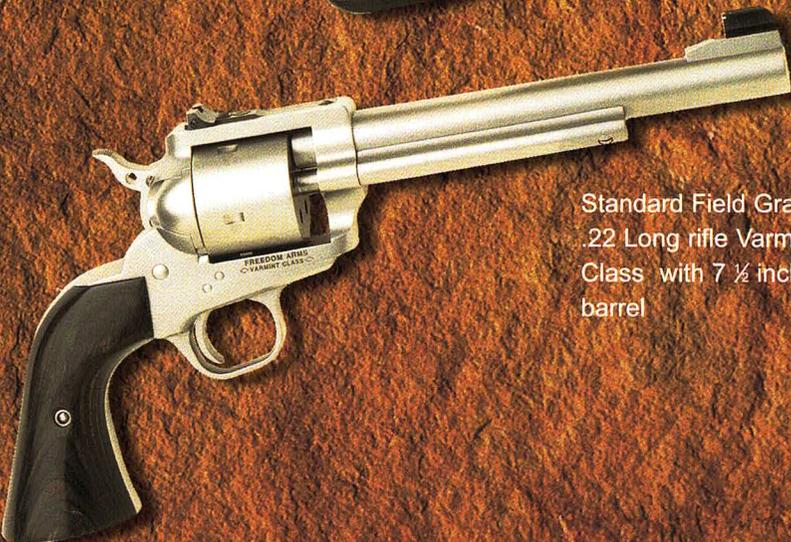

Standard adjustable sight Field Grade with 7 1/2 inch barrel

Standard adjustable sight Field Grade with 6 inch barrel

Standard adjustable sight Field Grade with 4 3/4 inch barrel

Standard Field Grade .22 Long rifle Varmint Class with 7 1/2 inch barrel

MODEL 83

FIELD GRADE

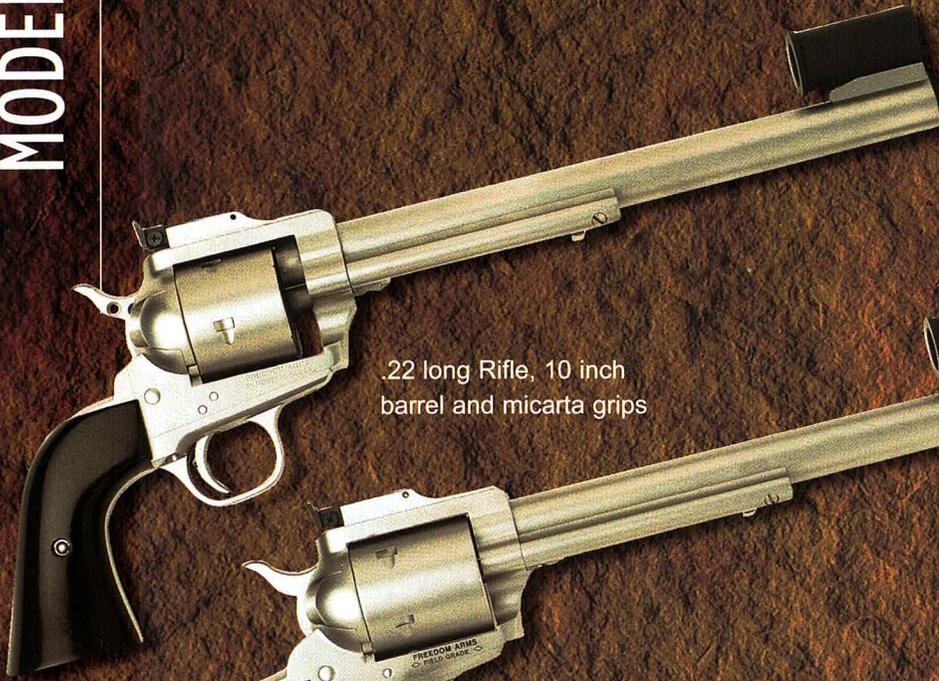

Large Frame Revolvers  
Calibers: .50 Action Express; .475 Linebaugh; 454 Casull;  
.44 Magnum; .41 Magnum; .357 Magnum; .22 Long Rifle

# MODEL 83

## SILHOUETTE MODEL

Large Frame Revolvers

Calibers: .22 Long Rifle; .357 Magnum; .41 Magnum; .44 Magnum

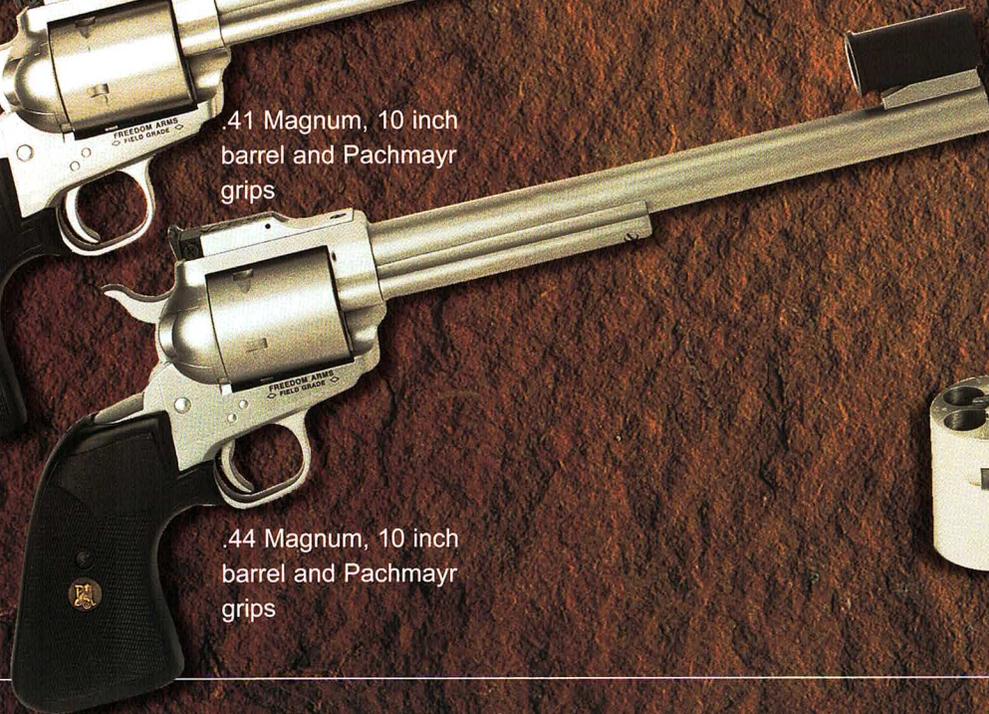

.22 Long Rifle, 10 inch barrel and micarta grips

.357 Magnum, 9 inch barrel and Pachmayr grips

.41 Magnum, 10 inch barrel and Pachmayr grips

.44 Magnum, 10 inch barrel and Pachmayr grips

## SILHOUETTE MODELS

Freedom Arms revolvers have proven themselves time and again in national and international competitions. Our silhouette models have helped shooters achieve their true potential. All silhouette models include silhouette competition rear sight, adjustable front sight, front sight hood and trigger over travel screw. Stock calibers include: .22 Long Rifle; .357 Magnum; .44 Remington Magnum and .41 Magnum. Consult the order sheet for standard specifications on each model.

## ABOUT SAFETY

The carry position of your Freedom Arms Model 83 revolver is with the hammer in the safety position and an empty chamber under the firing pin.

## PREMIER GRADE

Mid Frame Revolvers

Calibers: .45 Colt, .41 Magnum, .357 Magnum

# MODEL 97

## MODEL 97

The mid-frame model 97 is engineered and built with the same attention to detail and quality as our large-frame revolvers. They come in Premier Grade and include our patented transfer bar safety which doesn't affect the trigger pull when the hammer is in the full cock position. Available in five shot versions chambered for .45 Colt, (with optional .45ACP cylinder) or .41 Magnum. The six-shot .357 Magnum model (with optional .38 special cylinder) is designed for cowboy action shooting. Adjustable sight model is screw adjustable for elevation and drift adjustable for windage. Standard grips are impregnated hard wood. Options such as octagonal barrel, Mag-na-porting, honed actions, trigger over-travel screw or extra cylinders are available.

## ABOUT SAFETY

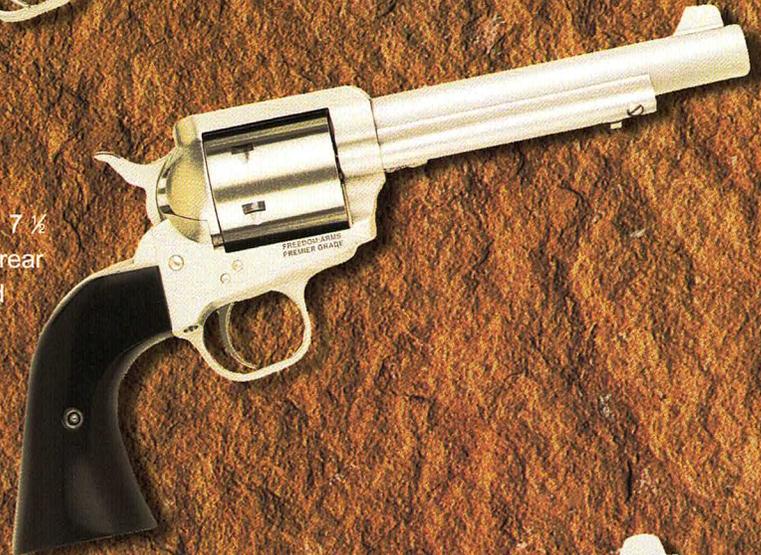

The carry position of your Freedom Arms Model 97 revolver is with the hammer down on an empty chamber under the firing pin.

## CYLINDERS

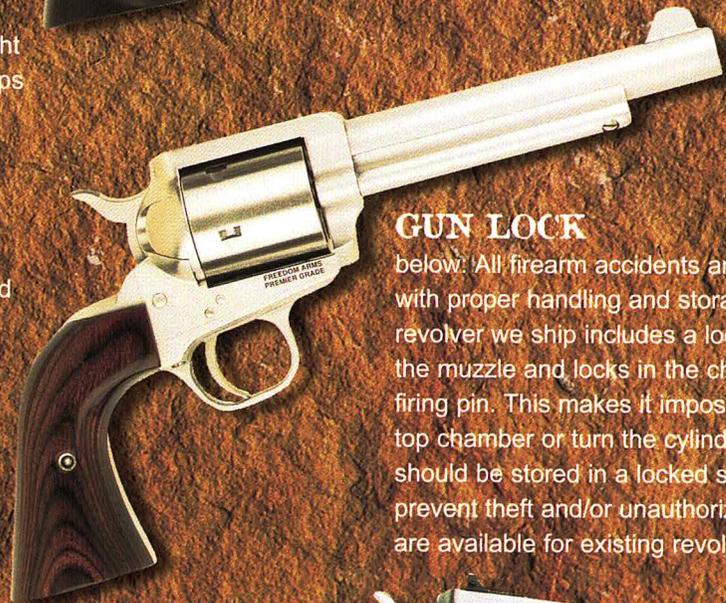

below: Extra cylinders are available for both Model 83 and 97 revolvers in certain calibers. Consult price sheet for combinations available.

.45 Colt, five shot, 7 1/2 inch barrel, adjustable rear sight, impregnated hardwood grips

.357 Magnum, six shot, 5 1/2 inch barrel, fixed sight with micarta grips

.41 Magnum, five shot, 5 1/2 inch barrel, fixed sight and impregnated hardwood grips

## GUN LOCK

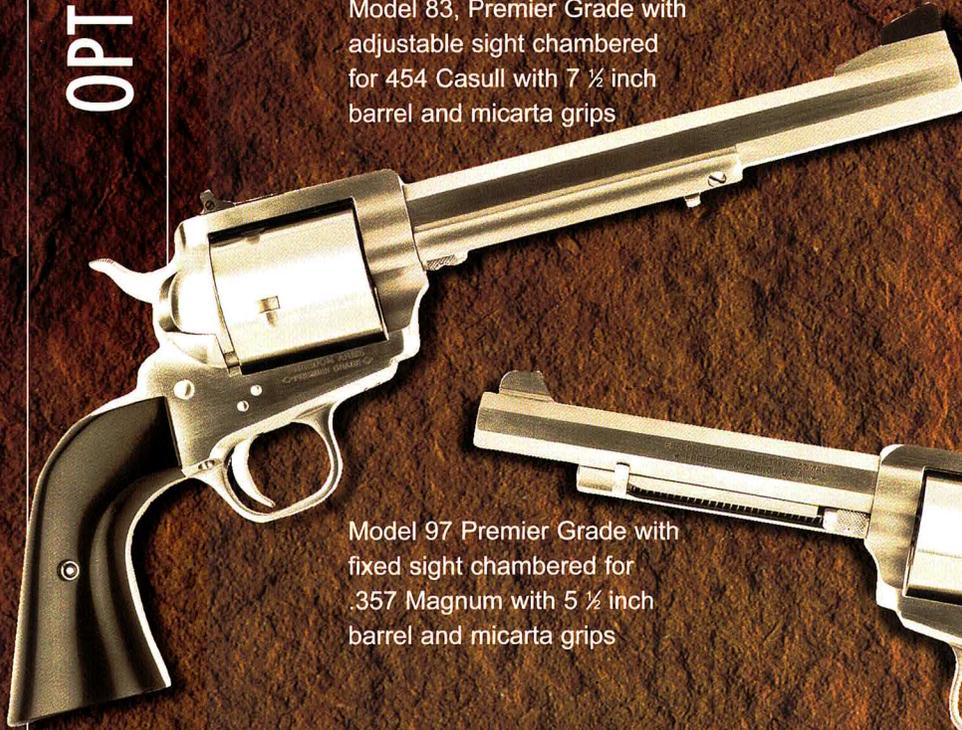

below: All firearm accidents are preventable with proper handling and storage. Each new revolver we ship includes a lock that slides into the muzzle and locks in the chamber under the firing pin. This makes it impossible to load the top chamber or turn the cylinder. Firearms should be stored in a locked safe or cabinet to prevent theft and/or unauthorized use. (Locks are available for existing revolvers)

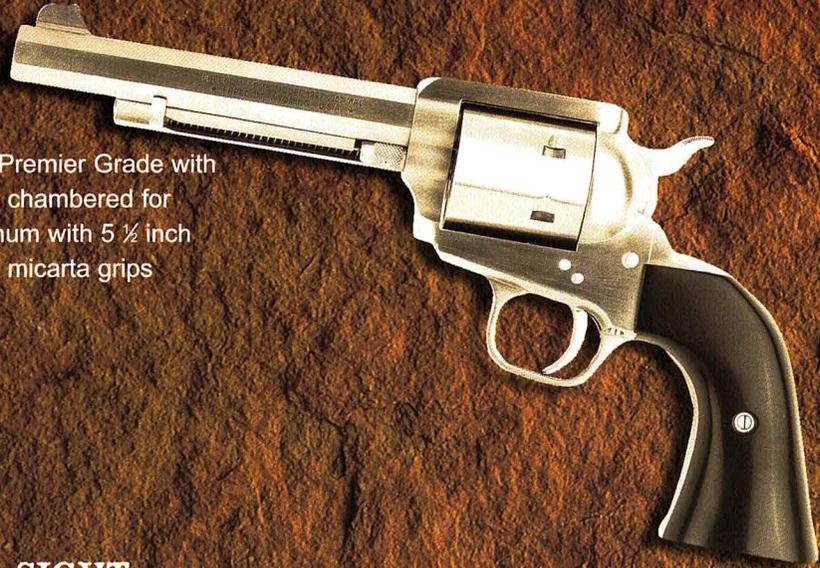

# OPTIONS

## MODELS 83 AND 97 OPTIONS

Model 83, Premier Grade with adjustable sight chambered for 454 Casull with 7 ½ inch barrel and micarta grips

Model 97 Premier Grade with fixed sight chambered for .357 Magnum with 5 ½ inch barrel and micarta grips

### FIXED SIGHT OPTION

Fixed sights are available on selected versions of models 83 and 97. Consult price sheet.

Model 83 with 4 ¾ inch barrel

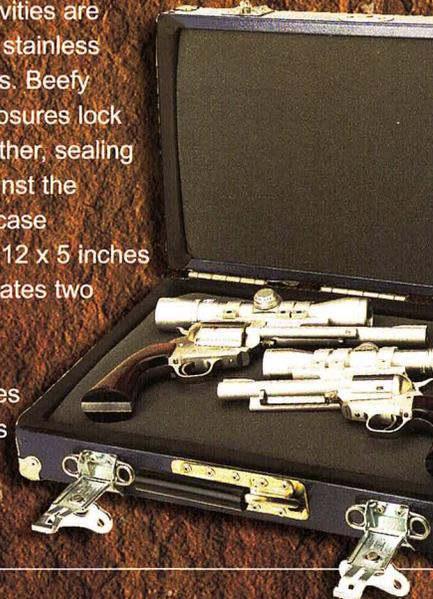

Model 97 with 5 ½ inch barrel and optional micarta grips

### OCTAGONAL BARRELS

One of our most popular options, available on any of the Premier Grade revolvers. Lengths range from 4 ¼ inch to 12 inch depending on your selection of revolver. Consult price list for details.

### BEAR TRACK CASE

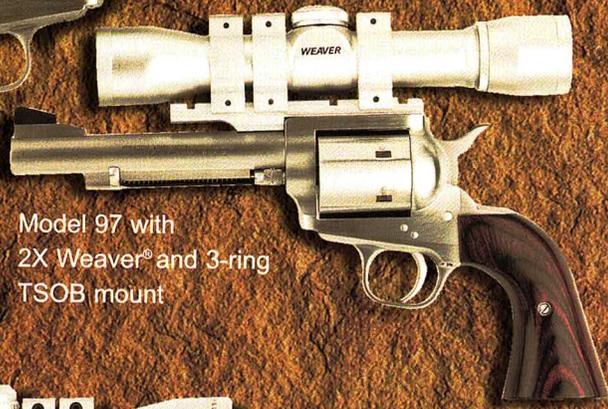

Freedom Arms revolvers are built to give a lifetime of service. They deserve the best protection they can get. The new Bear Track case is handcrafted of 11 gauge aluminum, reinforced and riveted at the corners for the utmost in durable protection. Tough, deep blue powdercoating protects the case from scuffs and wear. Two padded cavities are connected with stainless steel butt hinges. Beefy compression closures lock the halves together, sealing the interior against the elements. The case measures 20 x 12 x 5 inches and accommodates two Freedom Arms revolvers with scopes. Closures accept padlocks for added security.

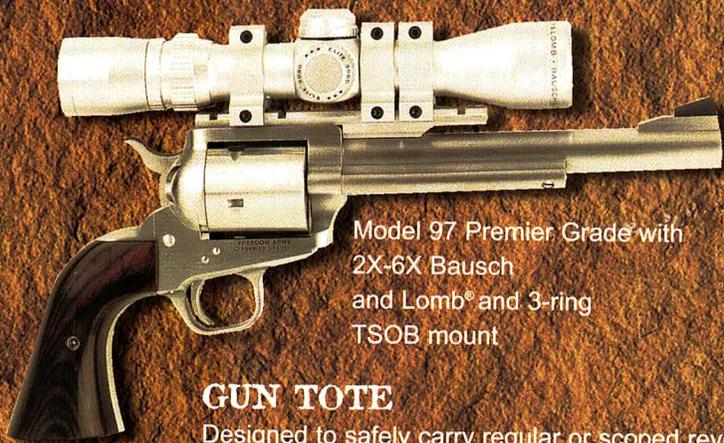

SCOPES AND MOUNTS

Model 83 with 4X Weaver® and 2-ring Leupold® mount

Model 97 with 2X Weaver® and 3-ring TSOB mount

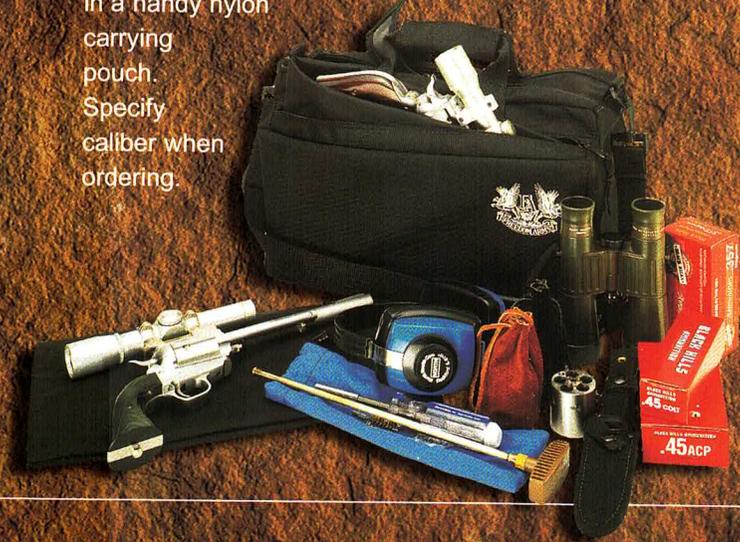

Model 97 Premier Grade with 2X-6X Bausch and Lomb® and 3-ring TSOB mount

**GUN TOTE**

Designed to safely carry regular or scoped revolvers, this padded, insulated tote has padded sleeves to further protect your guns. The padded center compartment has moveable partitions to customize your case.

**TOOL PACK** (foreground) A cleaning rod, handle, brush, jag and 3 inch extension, a multi-tip screw driver all packaged in a handy nylon carrying pouch. Specify caliber when ordering.

**BULLETS**

Premier bullets specifically made to take the high pressures generated by the 454 Casull cartridge utilizing a thick jacket and hard core to deliver maximum penetration and accuracy.

**DIES**

High quality die sets are available for the 454 Casull and .475 Linebaugh calibers.

**ALUMINUM CARRYING CASE**

This tough case is constructed with welded aluminum and a continuous piano style hinge. Foam interior and rubber edge gasket holds guns firmly and protects them from the elements. Heavy duty buckles lock the case down while a separate, riveted hasp accommodates a lock. Holds revolvers up to 10 inch barrels. Measures 18 x 10 x 4 1/2 inches.

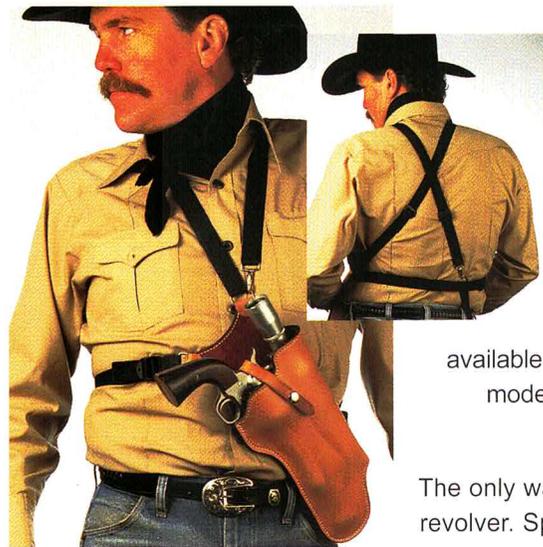

### COMBINATION THUMB BREAK HOLSTERS

above: May be worn strong side or cross draw.

### ROUGH OUT BELT HOLSTERS

right: Made with smooth side in so no lining is necessary. Offered in unscoped and scoped full coverage versions.

### SHOULDER HOLSTER

Our three-point suspension holds your revolver securely and distributes the weight evenly. Made with lined, top grain cowhide, with steel buckles and nylon webbing, models are available for scoped or open sight models in most barrel lengths.

### SNAP CAPS

The only way to safely dry-fire your revolver. Specify caliber and model when ordering.

Freedom Arms offers a variety of leather suede lined and unlined holsters specifically designed for our Model 83 and Model 97 revolvers, with or without scopes. Available for barrel lengths from 4 1/4 to 10 inches depending on revolver model.

### WESTERN STYLE BELT HOLSTERS

Available in traditional belt style, to a full coverage scope model for two and three ring mounts, to a slotted scope model for two ring mounts.

### T-SHIRT AND CAP

Let 'em know you carry the best. 100% cotton t-shirt with large image or pocket version with logo on chest, in S, M, L, XL.

Baseball style cap bears the Freedom Arms logo in front. Adjustable, various colors.

### BRASS FREEDOM ARMS BUCKLES

Choose either 454 Casull or Freedom Arms emblem in polished brass or brass highlighted with gold and silver plate.
